## Quality Management System Training Series

### ISO 9001:2015 Certification & Transition Training

#### *Training program overview*

##### **Why Management System is important?**

Effective management system enable to realize the transparent and stable processes. Through efficient communication, every functions get aware on their responsibilities to drive towards customer satisfaction and remain them loyal with company's products or services.

When people known on their duties, motivation of employee might possible to increase and cost reduction may come into reality when error avoidance are still in mind to focus. All these elements are the pulling factor for minimizing the RISK! And, increase of economic success by anchoring a continuous improvement process in the organization.

##### **What is the value when ISO 9001 has revised?**

Do us aware, all ISO standards are revised periodically to assure relevance and adequacy. Same goes to ISO 9001 for necessity of its revision to ensure increasing diversity of ISO 9001 users, developments in knowledge and technologies, broader user interests and to reflect on rapid changes in business strategy and culture.

##### **Grab this opportunity!!!**

Be the first system implementer to gain knowledge on transition program and identification of new elements that possible to apply in the organization. Upon attending this training, participant will explore the revised Quality Management Principles and new 'energy' adopted in process approach even though customer was remained as primary focus. Throughout the program, participant will be emphasized on risk-based thinking to align with the context of the organization and the needs and expectations of interested parties.

Finally, acknowledgment of the impact on current certification especially on established system and its documentation to provide optimum input as an evaluation or gap analysis before organization ready to upgrade to ISO 9001:2015.

#### *Training Objectives*
