OSHE Management System Training Series

Safety and Health Committee Training For Awareness

Training Overview

The formation of safety and health committee is addressed in Occupational Safety and health (Safety and Health Committee) Regulations 1996. Part V of the regulation has stressed the necessity of the organization to provide a training and information for safety committee member in handling of their task effectively.

In the context of this subject, the member of safety committee is a person who able to understand of what a health and safety committee is and what is required under the Occupational Health and Safety Act (including its regulations) and organization OSH rules as well.

This training is a best platform to qualify them as a competent safety committee member and one of the good efforts to assure the OSH system within the organization are properly implemented and maintained.

Training Objectives:

1. Awareness for participants to learn the responsibilities of a Health & Safety Committee, how such committees should function and how to apply the lessons learned to the operation of their own committee and organization
2. To refresh the participants the relevant activities required in complying with company's safety management system procedure in alignment with Occupational Safety and health (Safety and Health Committee) Regulations 1996.
3. A lesson for management of incident handling, investigation reporting and communication approach in handling of safety committee member's role with an appropriate manner.
