

Training Outline

OSHE Management System Training Series

Integrated Management System (ISO 9001, ISO 14001 & ISO 45001) Awareness / Refreshment Training

Training program overview

Integrated means combined; putting all the internal management practices into one system but not as separate components. For these systems to be an integral part of the company's management system there have to be linkages so that the boundaries between processes are seamless. An integrated management system (IMS) is a management system which integrates all components of a business into one coherent system so as to enable the achievement of its purpose and mission.

Training Objectives

1. Fundamental concepts & principles of an Integrated Management System standard requirements (ISO 9001, ISO 14001 and ISO 45001).
2. Plan & development of an IMS in meeting with ISO 9001, ISO 14001 and ISO 45001 Standard.
3. Certification requirements during development & implementation of the OSH System

Training Scope / Guideline

1. ISO 9001:2015 Quality management systems — Standard Requirements.
2. Occupational health and safety management systems – Requirements (ISO 45001:2018). Revision to ISO 45001 to substitute the existing standard is in progress.
3. Environmental management systems — Requirements with guidance for use (ISO 14001:2015)

Target Participant

Quality Manager, Quality Management Representative, Steering Committee Member, New appointed Internal Auditor etc.
