

# Training Outline

## OSHE Management System Training Series

### Behavior Based Safety Training

#### Overview

Without the right knowledge and system at the workplace, a worker's ability to effectively perform his duties would be largely affected. To create and maintain a conducive working environment, it is important for employers to take the necessary steps to prevent any injuries to the workforce. Preventing any accident as a result of work should be a top priority for all staff at work. Your business operations depend on them. Environmental trainings help you to:-

- Meet your legal duty as an employer to ensure full compliance to legal compliance
- Introduce and develop a good environmental culture at your organization, where safe & healthy working becomes a second nature to all
- Achieve a safe working place, ensuring that employees are not injured or made ill by the work they do

#### Training Objectives

Successful completion of the program will enhance the skills of participants and enable them to :-

- ✓ Understand the legal requirement imposed by Department of Occupational of Safety and Health (DOSH) Malaysia
- ✓ Importance of complying to Legal and Other Requirements
- ✓ Offences if noncompliance to Legal and Other Requirements
- ✓ To educate our workplace on an important of performing our task safely
- ✓ Able to identify the root causes and to introduce an appropriate control measure to create safe and healthy working environment.

## ***Training Methodology***

This training, theory and workshop is aimed to be practical, participative and interactive. Real life examples, case studies and “HANDS ON” tips will be given to participants during the training. There will also be small group activities to foster better understanding of concepts and real life applications.

A group discussion will be conducted to enable participants to understand the process by the direct facilitation by the trainer.
